PUBLISHED BY AND FOR THE EMPLOYEES OF THE P & C TOOL COMPANY
VOL. II, NO. 9 MILWAUKIE, OREGON SEPTEMBER, 1957

TEENERS BUSY

A group of teenagers affiliated with a local church, spending a profitable time using the P & C parking facilities for a car-wash project. The proceeds will be used to promote young peoples' activities at the church.

WOMAN OF THE MONTH

Hazel Erdman, Woman of the Month, was born in Oregon City, attended Eastman Grade School and was graduated from Oregon City High School.

Hazel and Jack Keith were married in 1921 and they had two daughters. Following Mr. Keith's death in 1941, Hazel worked as a clerk in Safeway Stores. She came to work at P & C in November 1942 in the Inspection Department and has been there ever since. Hazel has the distinction of being the first woman to work in the Shop at P & C.

Hazel met Bill Erdman at P & C and they were married in December 1943. Bill had a son whom Hazel has helped raise.

Hazel and Bill have a lovely new home just out of Oregon City.

Among Hazel's hobbies are flower raising, camping and traveling in the mountains.

Of course, Hazel's five grandchildren (three boys and two girls) are her very special "hobby."

CREDIT UNION

The P & C Federal Credit Union has been in active existence for its first full year. You will be interested to know that as of August 31st our combined savings amounted to \$5,605.90. This is very encouraging when we realize that our group has only 69 members. Twenty-nine loans have been made to the members for a total of \$5,580.29. Thirteen loans are now outstanding with a total of \$2,499.86.

I know that each of us is proud and happy to be a part of an organization of this kind whereby we can help ourselves and at the same time be of help to other members of our group. There are some of you working here at P & C that have not joined with us in the Credit Union. We extend a friendly invitation to you. Won't you join us?

P&C Federal Credit Union
Charles West, President

Vacations

Stockroom employees spend vacations at the following places:

Ed Corson and wife: Vancouver, B. C., and at the Coast.

Mary Osborne and husband: Eugene and at home.

Eloda Cornilles and husband: Idaho.

Stanley Hoffman and family: At the Coast.

Helen Wolf: At home and the beach.

CUSTOMER SERVICE

B. H. McClain, President

It's no secret that we shipped more P & C Tools in July than any month in our history.

It's also quite apparent that we haven't been able to provide the service to our customers that we would like to give and which they can reasonably expect, because of these lower stocks.

We commend everyone for the response to this challenge to improve our stocks and give better service to our customers.

In this competitive day, customers don't wait long for merchandise.

Let's produce the items that are needed most without sacrificing quality standards, and fill the pipeline with P & C Tools.

It will mean more security for our paychecks and for our Profit Sharing Fund.

Effie Boland and husband: Accompanied by friends, spent a week end in Victoria and Vancouver, B.C.

Eddie Seelbinder: Putting a new roof on his house, and then a few days at the beach.

The Stockroom has a new record!!!
FIVE NEW CAR OWNERS
Mary Osborne, Eloda Cornilles,
Velma Bilyeu, Effie Boland, and
Eva Walden.

The trend in hair cuts for men is the Crew Cut - Everybody get in the swing!

Sell Or Swap

For Sale

Lawn Mower - \$20 OL 4-2703.

We all were very happy to see Earl Smith walk into the office Tuesday, September 10, - his first visit to see us since his discharge from the hospital three weeks ago. Earl looks fine but reports that he is not ready yet to run a foot race.

We're glad to report that both Effie Boland and Eva Walden are now recuperating at home after two-week and one-week sojourns, respectively, in the hospital. Eva brought a souvenir home with her - she is wearing the latest in neck braces. Effie was in traction during her stay in the hospital - quite a contrast to her usual bustling activity making boxes for P & C Tools.
