Kits consisting of all these parts except "A" are available.

- For 6211 order X6211 2.45
- For 9209 order X9209 4.95

*Note for 6211 1/2" Drive ratchet repair parts. Older ratchets using the "X" Style parts are identified by:

1. Plug assembly is riveted construction. (We suggest these be sent to the factory for repair.)
2. Plug assembly is held together with large flat head screw.
3. Plug assembly is held in place by means of a "Keeper" ring at the back side of the drive plug as pictured at right—"X" Style.
